

Rear Entry Transition 6/15/26

Parking and Entrance Transition

Beginning Monday, June 15th

Dear Members,

We are excited to share that we're moving into the next phase of our construction project. Beginning Monday, June 15th, we will officially transition to our new side parking lot and rear building entrance. To support this improvement, the front parking lot and the front doors of the building will be closed for construction.

Building Access/Parking Changes - Effective Monday, June 15th:

- Front parking lot will be closed to parking and pedestrian access beginning at 8:00 AM
- Front doors will officially lock and will not be accessible at approximately 10:00 AM
- Parking will be available in the newly paved side parking lot or the rear parking lot (see attached photos).
- Follow the wayfinding signage for parking direction
- Front Desk will relocate to the back of the building near the locker rooms, where a member of our team will greet you.

What's New:

A new sidewalk has been installed to provide a safe and convenient walking path from Park Road to the rear entrance. Benches are placed along the pathway for rest as needed.

Some designated parking spaces labeled "Courtesy Parking" will be available for individuals with limited mobility to help ensure convenient access to the facility during this transition.

**Please see the attached maps and photos below for parking locations and additional signage.*

We appreciate your patience as we move into the next phase of construction and continue creating an enhanced experience for all who visit our campus. We look forward to seeing you and thank you for your continued support.

If you have any questions or concerns a member of our front desk team will gladly assist you.

Sincerely,

Christina Bellamy

Chief Operating Officer
